

OAM in INDONESIA

International corporations operating in Indonesia have come to understand that the growing menace from regional terrorism will adversely impact the security of personnel and assets. OAM provides professional security consultants familiar with the threats and armed with the solutions appropriate to the threat and the environment.

Whether the threat to operations is from illegal mining, militant groups opposed to the political status, or increasing incidents of urban terrorism including the threat of kidnapping for ransom or for propaganda purposes, OAM's analytical and measured approach to determining and implementing workable solutions is unrivalled in S-E Asia.

This approach is based on the deployment of highly qualified consultants with superior professional pedigrees and real-time experience on the ground.
